

# CHLORINE PROBE & SUPPLIES

## **THERMO SCIENTIFIC ORION TOTAL CHLORINE COMBINATION PROBE**

Measures Total Chlorine, as in Wastewater. Cannot be used for Free Chlorine. No separate reference probe required. Thermo Scientific Orion states that this probe will detect concentrations of residual chlorine down to 0.01 ppm.  
BNC connector.

**O-9770BN 625.50/ea**

## **POLISHING STRIPS**

For polishing electrodes of the Total Chlorine probe.

**O-948201 90.50/pk of 24**

## **REAGENTS FOR USE WITH CHLORINE PROBE**

Reagent	Manufactured by	NCL #	Price
Acid Reagent for Cl <sub>2</sub>	Thermo Scientific Orion	<b>O-977011</b>	<b>87.70/475 ml HM</b>
Acid Reagent for Cl <sub>2</sub>	NCL	<b>A-13</b>	<b>23.35/500 ml HM</b>
Iodide Reagent for Cl <sub>2</sub>	Thermo Scientific Orion	<b>O-977010</b>	<b>102.00/5 x 50 ml</b>
Iodide Reagent for Cl <sub>2</sub>	NCL	<b>I-55</b>	<b>24.50/pint</b>

## **CHLORINE STANDARDS**

Concentration	Manufactured by	NCL #	Price
100 ppm as Cl <sub>2</sub>	Thermo Scientific Orion	<b>O-977007</b>	<b>88.70/475 ml</b>
100 ppm as Cl <sub>2</sub>	NCL	<b>C-9A</b>	<b>24.35/500 ml</b>

Please see the chemical section in this catalog for other sizes.
