

CHLORINE PROBE & SUPPLIES

THERMO SCIENTIFIC ORION TOTAL CHLORINE COMBINATION PROBE

Measures Total Chlorine, as in Wastewater. Cannot be used for Free Chlorine. No separate reference probe required. Thermo Scientific Orion states that this probe will detect concentrations of residual chlorine down to 0.01 ppm.
BNC connector.

O-9770BN 625.50/ea

POLISHING STRIPS

For polishing electrodes of the Total Chlorine probe.

O-948201 90.50/pk of 24

REAGENTS FOR USE WITH CHLORINE PROBE

Reagent	Manufactured by	NCL #	Price
Acid Reagent for Cl ₂	Thermo Scientific Orion	O-977011	87.70/475 ml HM
Acid Reagent for Cl ₂	NCL	A-13	23.35/500 ml HM
Iodide Reagent for Cl ₂	Thermo Scientific Orion	O-977010	102.00/5 x 50 ml
Iodide Reagent for Cl ₂	NCL	I-55	24.50/pint

CHLORINE STANDARDS

Concentration	Manufactured by	NCL #	Price
100 ppm as Cl ₂	Thermo Scientific Orion	O-977007	88.70/475 ml
100 ppm as Cl ₂	NCL	C-9A	24.35/500 ml

Please see the chemical section in this catalog for other sizes.
